	KK4608	2 x 5 ml (1000, 20 µl rxns)																							
KAPA SYBR® FAST qPCR (2x) Kit optimized for the LightCycler® 480: Contains no reference dye	KK4609	1 x 1 ml (100, 20 µl rxns)																							
	KK4610	1 x 5 ml (500, 20 µl rxns)																				●			
	KK4611	2 x 5 ml (1000, 20 µl rxns)																							

● Indicates preferred kit for this cycler

○ Indicates that kit can be used but may require the addition of ROX reference dye
